About Me

Computer Science graduate skilled in Java, Spring Boot, and Hibernate, with experience building secure, scalable RESTful APIs and working with PostgreSQL and Oracle. Passionate about designing efficient and reliable backend systems.

Education

Gandhi Institute of Engineering and Technology University, Gunupur **2020 – 2024**

Bachelor of Technology / Computer Science Engineering / CGPA: 6.75 ***Gunupur, Odisha***

Bodhicariya Senior Secondary School **2017 – 2020**

Higher Secondary Education (CBSE) / Percentage: 63.20 ***Kolkata, West Bengal***

Bodhicariya Senior Secondary School

Secondary Education (CBSE) / Percentage: 74.10 ***Kolkata, West Bengal***

Technical Skills

Programming Languages: Java

Backend: Spring Boot, Hibernate

Database: SQL, PostgreSQL, Oracle

Web Technologies: HTML, CSS, JavaScript

Tools: VS Code, GitHub, Git, Postman

Projects

Task Management | **Spring Boot**

- Developed a secure task management system with user authentication, session handling, and profile management features.
- Developed scalable backend services using Spring Boot and Hibernate, ensuring efficient database interaction with PostgreSQL.
- Implemented session validation and exception handling mechanisms, preventing unauthorized access and improving reliability.

School Management System | **Hibernate**

- Developed a relational data management system using Hibernate, modeling academic relationships across multiple entities.
- Implemented bidirectional Many-to-Many mappings with synchronization logic, ensuring data consistency across associations.
- Managed transaction lifecycle using JPA EntityManager, optimizing persistence operations and reducing boilerplate JDBC code.

Relevant Coursework

- Data Structures and Algorithm
- Object Oriented Programming
- Database Management System

Experience

JSpiders – Java Full Stack Development Training **June 2025 – Present**

- Undergoing intensive training in Java Full Stack Development at JSpiders, Bengaluru.
- Gaining hands-on experience in Core Java, OOPs, Collections, Multithreading, SQL, and database management.
- Developing backend skills using JDBC, Servlets, JSP, and Spring Boot.
- Learning frontend technologies including HTML, CSS, and JavaScript.
- Working on real-time projects and practical assignments to build industry-ready full-stack development skills.

Lagozon EduTech - Data Visualization **May 2022 – June 2022**

- Developed after-sales analytics dashboards using Power BI for the pharmaceutical domain, enabling better analysis of sales trends and performance.
- Processed and analyzed datasets to generate meaningful visual insights using data visualization techniques.
